AGC CORONAVIRUS WEBINAR SERIES STARTED TODAY MONDAY (FREE TO MEMBERS)

Beginning Monday, March 23, AGC will host an 8-part webinar series on the “Factors that Construction Companies Need to Consider, as They Strive for Business Continuity”. Please encourage your members to take advantage of this timely series, which will run from Monday, March 23 through Wednesday, April 1.

This series is FREE TO MEMBERS. To register now click [here](#).
The series will cover the following topics:

Part I: Your Federal and State Legal Obligations to Provide Paid and/or Unpaid Leave to Your Employees

Part II: What the Federal and Many State Labor and Employment Laws Are Likely to Require of You, as You Adjust Your Operations to Meet the Latest Contingencies?

Part III: The Contractual and Related Legal Protections and Risks for Construction Companies

Part IV: How to Protect Your People and Your Projects

Part V: The Components of a Comprehensive Project Continuity Plan

Part VI: Insurance Coverage and Claims for Losses Resulting from the Outbreak

Part VII: The Additional Pressure that the Outbreak Could be Putting on Your Information Technology

Part VIII: What You Need to Watch, as the Outbreak Continues to Unfold

We hope that this series is valuable as our members learn to navigate this new reality and continue to operate their businesses. More detailed info on the webinar series and how to register can be found [here](#).

We have had a number of member firms offer free webinars addressing topics of interest. Please take advantage of these as they become available.

Burr & Forman remains prepared to quickly adapt and effectively serve our clients throughout this challenging time. We are dedicated to serving as your trusted business partner to help advise and address the unique challenges your industries now face.

We have included webinars on specific Labor and Employment-related topics to help answer questions and give insight during these times and will continue to record and share in the days to come.

URGENT AGC ACTION ALERT

The COVID-19 pandemic is taking its toll on construction businesses necessary for building and maintaining critical infrastructure such as that used to transport essential goods and services, deliver clean water and electricity, and protect our national security, among other things.

Tell Congress to take immediate action to:

1. Enact policies and programs that ensure all construction employers' cash flows so they can pay workers and maintain their essential operations;
2. Ensure public construction markets have immediate-term access to additional federal funds to build critical infrastructure; and
3. Lay the foundation for the long-term recovery of the industry and its markets through enacting multi-year public infrastructure investments.

Click the "Take Action" button below and simply submit the pre-written message as is to your members of Congress or customize it with personal information on how this issue impacts you and your employer.

WILLIS TOWERS WATSON (WTW) COVID-19 PROTOCOL SAFETY / RISK SHARING REPORT

Dear Construction Leaders,

A common refrain heard from many health, safety and risk leaders in these extraordinary times is some version of “now more than ever, we would benefit from knowing what others are doing in response to the COVID-19 outbreak”. In service of our valued clients and others interested in emerging peer practices related to the COVID-19 workplace response, Willis Towers Watson recently commissioned a flash survey to identify and then share what construction leaders (and beyond) were experiencing, acting on/doing, and still seeking solutions for.

Attached is the summary of the initial survey results, consistent themed practices, and other COVID-19 resources from over 150 construction companies for your use and application. Included in the report is peer guidance and sample plans for project shutdowns

Thank You

Bob Fitzgerald CSP, CHST, MPH

Senior Risk Control Consultant
