

Are you tired of overpaying for your garbage service? Is your solid waste services budget consistently overrun with extra fees every month? Then it is time to make the switch to Baldwin Container Company!

Baldwin Container Company is a locally & veteran owned solid waste services provider, and professionally operated since 2005. We proudly serve Mobile and Baldwin County for both commercial front end load and roll off needs. At BCC we offer flat rate trash service. This means no additional fuel/environmental/or admin fees attached. BCC has been able to offer many companies tremendous cost savings, and allowed for a more consistent budget for garbage services. For example, we were able to help the AGC office save over \$3,500/year on their garbage service.

Our mission is to safely provide outstanding customer service and attention to detail in all of our solid waste management services.

At BCC we value Hard Work, Getting Things Done, an optimistic approach to growth, and place a strong emphasis on the communities in which we live, serve and work.
